**DOCTOR RECOMMENDS 'CUTICURA' FOR BAD CASE OF PIMPLES**

Sufferer's Face in Such a Condition He Was Ashamed to Go Out. Cured by Cuticura Soap and Ointment.

3880 Third Ave., New York. "About three months ago my face and neck became covered with small red pimples which later developed into large boils and my face was in such a condition that I was ashamed to go out of the house. After using salves recommended by the druggist I went to a hospital for treatment. The head physician at the hospital told me I would have to report for three or four months for treatment, before the boils would ever start to disappear."

"A young physician while treating me recommended Cuticura Soap and Ointment and told me to treat my face every night before retiring with both the Cuticura Soap and Ointment. By following his advice I did not have to go to the hospital for more than a week and a half. The results obtained were far better even than the physician expected and I was completely cured in a short time by the use of the Cuticura Soap and Ointment. I also found that both nurses and physicians at the hospital used the Cuticura Soap and Ointment." (Signed) Fred Vismeyer, Sept. 7, 1911.
